notified that the carrier of the RECORD will, after the 8th of September, 1873, enforce strictly his rule requiring a settlement at least once a month. He is compelled to settle for his papers every Monday, and it is unreasonable for persons to expect him to wait upon them for his pay for a longer period than a month. Those who fail to comply with his rule after the date above mentioned will be stricken from his list until pay-ment is made. No exceptions to the rule will be made.

ALEX. Brown, the indefatigable, not satisfied with his magnificent hall on lower Main street, where, by common onsent, he dispenses the purest liquor and the most delicious drinks in Pioche, has purchased the City Club Rooms, where the will henceforth cater for the public as well as at the old stand. The City Club Rooms are sure of a big run now.

JEWELRY FOR EVERYBODY.-The Sidewalk Jewelry Man received a new stock of goods yesterday morning, and judging from the growds which surround him, he is making rapid sales. His raffle is nothing but simple dice shaking.

WE would call the attention of our readers to the advertisement in another column of the Brooks Sewing Machine Co., of New York; they advertise, what is indeed a valuable invention, a first-class indeed a valuable invention, a first-class sewing machine for five dollars.

POSTPONED.-The ball to be given by Mrs. Mary Lynch, and announced for this evening, is postponed till further

The company now employs thirty-five men; and about seven tons of ore are taken out daily. Drifting still continues, east, west and south—the east and west house greeted John Magnire on the or drifts being on the ledge. Two winzes casion of his beneft. The play entitled are being sunk, one to the east and the other to the west. Workmen are raising in stopes east and west of the main drift. In the stopes the ledge is about one foot wide, Teams will commence hauling ore from the large pile now on the dump, next Monday (to-morrow) and the mill too heavy for his part. In some portions will begin crushing it on the 15th.

SPHING MOUNTAIN TUNNEL. The sinking still goes on in the shaft on No. 3 ledge, in which a fair progress is being made. The ground continues hard down back of the foot wall. It is expected that ledge No, 2 will soon be cut at a depth of 150 feet. A cross cut will be run thence to reach No. 3; and both on the Nevada Central Railway ceased veins exposed from that point. The prospects indicate that good bodies of ore five employes were discharged. This, will be found.

PIOCHE PHENIX. After allowing this mine to be unworked for about two weeks the owners have resumed operations, having appointed John P. Kelley as Superintendent. The only work now going on is sinking the shaft, which was commenced on Thursday last. The shaft is now down 550 feet.

RAYMOND & FLY. been reduced to less than 30 in all, above and below. There is now no work progressing, except that being done by contract, and the vicinity of the mine appears very dull indeed. The contractors are doing only "dead" work.

AMERICAN PLAG. The workmen are now running drifts east and west and sinking the shaft. The men are divided into three shifts, in order to push ahead with all possible speed. The American Flag Mill is now undergoing repairs.

CHIEF OF THE HILL. A progress of 15 feet was made in the west drift, on the 210-foot level. There has been no material change in the appearance of the stones during the week. One hundred and five tons of ore now lie on the dump, awaiting shipment.

PIOCHE. One handred and ten tons of ore were shipped during the week. Bullion has begun to come in from the mill. One hundred and fifty pounds of crude bullion have been received at the office.

of the mine were discharged on Tuesday last. This stoppage, however, is only a temporary one, as it is expected that work will be resumed with the usual

force in a short time. Ore is being shipped to the mill from the mine at present. Work, which was suspended a few days ago, will begin again on Monday, by contract.

CAROLINE. The company is now sinking the main shaft at the rate of four feet a day. They have now attained a depth of 285 feet.

CHIEF EAST EXTENSION. Ore of a tolerably good quality is being taken out, and workmen are assorting it on the dump as it comes to the

surface. BOWERY. A little prospecting is being done and the shaft is being sunk.

CHAPMAN. The work continues to the satisfaction of the owners without any alteration.

LOUISE. The ledge continues to improve as the drift is extended.

IVANHOE The shaft is still being sunk and very

fair progress is made. NO ITEMS With regard to the Page and Panaca, the Mesdow Valley, the Amador and the Newark. We could obtain no informa-

A VERY PRACTICAL JOKE. - Yesterday morning an unusually large crowd assembled at the Court-house to hear the sentences of the murderers Harrington and Ferguson. The platform between the Court-house and the jail was crowded, and of course a number of inquisitive men tried to look into the jail through the small grated windows. The boys" inside, invariably gave their inquisitive faces a cool reception, dashing water into every one of them. One way of attracting the curious was for the

prisoners to make a racket inside as if they were fighting among themselves. This invariably drew some one to the windows, and just as invariably that one retired from the window with his face cooler, at least, if not cleaner.

PERSONAL .- Col. Harry I. Thornton arrived by yesterday's stage from San Fran-cisco. The gentlemen, we are happy to say, is in good health. Something new-red, white and blue Cal. Mission fiannel undershirts and drawers-\$4.00 at Ashim & Bro.

HANLY'S THEATER.-Last night a goo ** Robert Emmet " was presented, and also the burlesque of "Pocahontas. In the former, Bella Bird, Geo. F. Bird and Dudley were as good as usual. Miss Ella Phillips had a part which was toheavy for her, and John Magnire was of the play Mr. Maguire showed real feeling. He was often applauded during the evening, and was also called before the curtain. "Pocahontas" was as abthe curtain. "Pocahontas" was as ab-surd as burlesques usually are; but it caused people to laugh in spite of them-selves, and the audience left the theater in good humor.

Suspension of Work .- The ore trains running on Friday evening, and twentywhich is only a temporary suspension, is owing to the cessation of work in the Raymond & Ely mine, on account of which there is no ore to be shipped by rail until the taking out of ore is resumed. The company now have an excellent opportunity to make those changes on the road which are necessary. The cars will continue to carry the bullion from the mills, and other freight which it has been

customary to send by the road. Exciting Rumon.-About half past The number of men employed has four o'clock yesterday afternoon a rumor flew through the streets to the effect that a fight had taken place in the County Jail between two of the prisoners-Harrington, convicted of murder in the secand degree, and Howard, under sentence for manslaughter. It was also said that Howard had broken Harrington's back. There was no truth in the story. Inquiry was made, and it was ascertained that the two were chained in different cells, so that it was impossible for any difficulty to have taken place between

A READING PROPER. - The Americans are emphatically a reading people. Their specialty, however, is newspaper literature. With plenty of papers to read, time never drags on one's hands, while it is idle to undertake to estimate their value. THE Sidewalk Jewelry Man is still doing a rushing business, judging from the orowds surrounding his stand. It is reported that he is receiving new goods daily. There is no cheating at the raffle—nothing but plain dice-shaking.
